...**around the kitchen table** (for family *or* small group discussion)

- Worship is so much more than just music. Talk together about what worship is?
- Talk about the different styles of music that you like. Why might a specific style of music help **you** worship better? What can you learn, or how can you grow, but participating in worship through music in a style that is not your favourite?
- Read Psalm 138 together. How does nature praise God?
- Describe what you think worship in heaven will look and sound like? Can you provide any bible verses to support that? If so, which ones?

...in bible study

- Discuss together how you can **give** more in corporate worship? How can you give to God? How can you give to others?
- It was suggested that Mary came to worship not "withholding," but rather "surrendering great value." What have you never really surrendered to God in worship? What do you hold back from God when you are in corporate worship?
- Do you think people today generally have an adequate sense of awe of God? If not, why not? How can you tell if someone has reverence for God? How could someone deepen their sense of reverence and awe for God?
- If you knew that you were in the last corporate worship service you would attend on earth, describe what that service would look like? How would your attitude toward that service be different?
